In support of its mission to promote the industry's current and future workforce, the BCA Workforce Development & Education Committee has established a formal partnership with the **Indiana Construction Roundtable & Build Your Future Indiana (BYF)**. This Build Your Future Ambassador Training will provide participants with the knowledge and facts needed to deliver a consistent, effective message about the construction industry, specifically when volunteering in local school systems. This class is another step in BCA's work to get more deeply involved in promoting the trades and taking a more proactive approach to promote and grow our industry. BYF staff is currently working to schedule classrooms visits in our region for members. BCA will also work with our members and local school systems to plan visits. We invite you to learn more about the BYF Indiana program by visiting their website: www.indiana.byf.org.
