*Do you run your business or does your business run you?
Are you ready to take your business to the next level?*

This seminar is designed for every business, owners and upper-level management. It will take attendees through each step to climb the ladder of business growth and have a commercial, profitable enterprise that works without you. You cannot have a business that works without you until you have a business that works, and prior to that, it has to be both commercial and profitable. By attending this seminar, you will see how your business will grow through the six steps: Mastery, Niche, Leverage, Team, Synergy and Results.

Learn time-tested principles of how to:

- Gain control of your time, team and money
- Turn your marketing into an investment, not an expense
- Multiply your customers, revenue and profits
- Leverage team, systems, technology and marketing
- Recruit, motivate and retain a winning team of employees
