About the Michael H. Kinder Jr. Memorial Scholarship

Two scholarships in the amount of \$2500 are available.

The family of Michael H. Kinder Jr. established this award to recognize accomplishments and achievements of a recent high school graduate OR existing college student or apprentice who wishes to pursue or is pursuing a career in a construction trade (carpentry, bricklaying, plumbing, etc.) under a BAT-approved construction apprenticeship program OR an Associate or Bachelor degree in a construction or civil-engineering related field.

This scholarship is named in memory of Michael H. Kinder, Jr. who lived and breathed construction for 42 years while he was part owner of a local construction company. Mike's love of all things construction continued until the day he died. He was a huge perfectionist about the work he and his company did, but he also had a huge heart, a bright smile, and a desire to help others learn and grow in the profession. Even though Mike was the "boss," he ALWAYS arrived home from work dirty because he couldn't resist helping his crews. He was hugely passionate about growing and developing the next generation of construction talent and would be proud to have this award in his name. He also served as a volunteer for numerous organizations during his career and in his retirement, including being highly involved with the BCA, from which he won the Summit Award in 2003. We are seeking students who we believe share a similar passion as Mike had for the construction industry, and we encourage you to do your best in conveying your passion in this application.

- Apprenticeship Program Applicants: If the winner is studying under an apprenticeship program, up to half of the award (\$1250) may be used to purchase tools required by the trade. The balance would go towards tuition expenses, subject to the program requiring it.
